Company Name: _____ **Booth #:** _____
On-site Contact: _____ **On-site Contact Phone #:** _____
Reason for Music in Booth: _____

Rules, Regulations, and Consequences of our Music Policy:

PLEASE READ AND INITIAL BELOW

- _____ This is a family friendly event atmosphere and all music being played must NOT contain any explicit language, profanity, or offensive gestures/slurs.
- _____ **First Violation** will consist of a verbal warning. If your music is too loud you will be asked to turn the music down to the acceptable level determined by the Europa Games Staff.
- _____ **Second Violation** will result in all audio and sound to be turned off immediately for the duration of the event. If the music is still being played after your second warning, then all audio equipment will need to be completely unplugged from your booth and will not be allowed to be set back up at any point during the event.
- _____ **If in violation of any of these regulations listed above, you will not be entitled to any sort of refund for sponsorship and you may jeopardize your future sponsorship with the Europa Games Expos.**

1. Steve Straka (Show Manager), along with any of his Europa Games staff, will let you know the accepted decibels level. Each level could be different per city and will be adjusted per venue. This level will be determined on-site, but the basic rule of thumb is you should only be able to hear the music in your specific booth. The music volume should not impact any neighboring booths and their ability to conduct business.
2. We will have 4 Europa Games staff members on the show floor with decibel meters monitoring each booth sound levels through our entire show times.
